

ESQUIMALT NATION

1189 Kosapsum Crescent
Victoria, BC
V9A 7K7

May 27 2021

Dear Esquimalt Nation Members,

The Public Health Officer (PHO) has removed some of the province-wide restrictions. However, in light of Esquimalt Nation's second vaccination scheduled for June 10th 2021, our restrictions will continue to be in effect until July 1st 2021 at midnight. The vaccination will be most effective 14 days after it is administered; this is the length of time required for your immune system to mount an antibody response to the vaccine

Therefore, at this time, all non-essential travel should be avoided. Essential travel continues to be acceptable and is defined as:

- Travel for work
- Travel to medical appointments and hospital visits

Esquimalt Nation Administration will continue a "work from home" schedule to maximize social distancing; all activities at the Big House are suspended until further notice; visitors to residential homes on reserve will not be tolerated and violators will be reported to the police.

Esquimalt Nation Leadership and management are doing our best to maintain a healthy and safe community. It will require the due diligence and compliance of all members to achieve this.

If you require assistance during this time, please send email requests directly to Millie Modeste at millie@esquimaltnation.ca. Millie will defer your request to the appropriate department for a response.

Thank you for your patience while we continue to navigate the final phases of this pandemic.

Signed,

Chief and Council
Esquimalt Nation
